

How to transfer shares of stock to Unbound

Stock shares may be transferred to Unbound by electronic wire or physical transfer. Because of security concerns and the complexities of physical transfer, we prefer electronic transfers.

Included below are transfer instructions to our trust account with BOK Financial. Please notify us with the name of your financial institution, the number of shares or estimated stock value, issuing company and how you would like us to utilize the funds. This will help us identify your gift when received by our bank and disburse the funds according to your wishes.

Electronic stock transfers:

To initiate a transfer, please notify your broker or financial institution that you wish to make a donation of stock or marketable securities to Unbound. The transfer will be made electronically via DTC to our account with Bank of Kansas City. (Please note there are separate instructions for gifts of mutual fund shares.) Your financial institution will require the following information:

Transfers of privately held stock:

You may also wish to donate shares of privately held stock which will also require the physical transfer of stock certificates to Unbound. If the value of the privately held stock is more than $10,000, the IRS requires a qualified appraisal. In addition, with gifts of privately held stock, there may be a discount for minority interest or lack of marketability. Your appraiser should determine the discount (if any apply) and value of the stock prior to transfer.
