

MAKE YOUR OWN GREETING CARDS

This simple craft demonstrates how greetings cards don't have to come from a store or cost a lot of money. The best cards come from a child's heart and imagination.

SUGGESTED USE

This card-making template can be used multiple times throughout the school year for holidays, birthdays or other special occasions. If the class's sponsored friend has a birthday during the school year, every student can send a card, with a special message.

Prayer

Father, thank you for all the special occasions in our lives. Thank you for the celebrations. Thank you for the love of our families and friends. Help us to never be afraid to show others what they mean to us. We ask this in Jesus' name. Amen.
