

# UNBOUND MATCHING GAME

Students can enjoy this matching game together as they explore interesting places where families in the Unbound program live. The photos are of families around the world and represent their culture and way of living.

## SUGGESTED USE

This simple memory matching game can be used in different ways. You can have children answer questions about the featured countries in order to earn the right to try to make a match, or you can simply have them take turns flipping the cards. Because the cards are arranged differently every time the game is played, the set can be used over and over.

## Prayer

*Loving Father, thank you for all the many marvelous places you teach us about, and all they have in them. This is truly a big, bright and wondrous world, and we praise you for letting us be a part of it. Amen.*
